Subject: RE: Seduction Games - Levels of Communication

Hey CR, Just wanted to say that I bought your e-book and couldn't wait to get through it, I am not sure that I have read everything but, that is ok I have the time to go over all of the downloads. I am in the second reading of the longest (163pg) PDF and while it took a while, I was looking for references to "that little arcade sound she will make" I believe that you mentioned it three times, I haven't completed the reread. At first when I read it I wasn't sure what I had read [about the arcade sound], when I saw it again I still wasn't sure, by the time you had mentioned it for the third time I figured that it was some kind of an inside joke or something.

Anyway, I was convinced to [do a TIP that is in the book], we have been married over 30 years and at times I (meaning we) thought that I needed some help. the action is consistent but certainly not "hot" and I have been wondering, during the reading who is scoring sexual tension points with her, because "upon further review" by me, I certainly wasn't... ..She loves me, and tells me all of the time, but the tension is not there, and I never realized how important it is. I realized that just possibly I was the only one getting off, Ugh. ...

By the third day I can feel her tension, [a step by step process], she does initiate the action and when its time for me to roll her over and give her some relief, I hear "this little arcade sound" and she has this enormous orgasm just as I am "about to" enter, she is wetter than any time I can remember, she is sooo Hot that I can't believe it, I deliver the "goods" and **she is Cumming again and again**, and I had figured that (erroneously) that she wasn't multi orgasmic, (30 years too late). CR, what is the "little arcade sound"? I am trying to recreate our most recent round of action with something even hotter, I am working on the different levels of communication, who knows what I will find, thanks.

Hi Max, Thanks for the feedback. I was really pleased reading your email. The "little arcade sound" is just a joke. It just means that you gained sexual tension points. When I came up with that I was just thinking how cool would it be if you actually "heard" an arcade sound (you know like when Pac Man eats the Power Pellet) every time you created sexual tension in your female partner. LOL. **It seems like you had her squirming for some sex!** I was laughing when I read that. Some guys have no idea how powerful a woman's sex drive can be. When she has that "squirming itch" down... Take care my friend. Warmly, CR James

Hi CR James, I have to admit the transformation in me was **almost instant** after reading some of your e-books, especially Super Sex Power. It was like a revelation. I wish I got all this info 20 years ago. It's funny, I went on a date with **very attractive girl** before I read your book and when I called her back next day she said to me that I am a very nice guy but we can be only friends. Next day, I bought your e-books and read some of them thoroughly in two days. After that I invited her on a date again and applied all this stuff I learned from your book. She became drawn to me, dropped her boyfriend and **now I am her new boyfriend**. It was magic. By the way, I live in US but I am originally from Russia and for years had this stupid idea to attract American girls which has never worked. I was intentionally ignoring Russian girls that live in US. I wasted so much time on this stupid idea that I finally became total sissy after hundreds of rejections. **Your book completely snapped me out of "tranced" condition** and I am back to the younger confident myself. Now I have a policy though: no more American girls and I will be dating only Russian girls. Thank you man! Julian Note: All testimonials are 100% real and unsolicited. Note #2: Results are the only thing that matters.

[CR James's reply]

Hi Julian Cool! Thanks for the kind words my friend. I was really pleased to read your email.... you obviously did everything right... Ironically I was just educating this guy that the transformation CAN take place overnight... It's simply of matter of doing the secret things that work over and over again... Take care - good luck with those Russian babes! Warmly, CR James also - here is a surprise for you Julian (I give this out strictly to customers from time to time) right click and save target as:

You know, I was also highly skeptical. Sorry, but it did cross my mind that all the comments on your website were made up. But they dealt with some of my concerns and issues I wanted to change, so I took a chance and went ahead. Glad I did.

This isn't for attribution on your website (at least not by name), but I had been suffering depression for about 18 months. The turning point came when I realized I was getting rejected by my wife and that things had to change. I had three options: quit the planet (not an option), quit the family (not an option) or change things (possibly the hardest option, but the only one worth trying). Your ideas helped me back on track. **My biggest problem recently seems to be that too many women now see me as desirable** in the exactly way I'm trying to get my wife to see me.

I have a very beautiful seductive wife, an ALPHA female (smart Brazilian). We use to have great wild sex that has died down to her having an orgasm, with a lot of effort, once every three months.

I began reading your book last night at home while she was studying her GMAT to avoid me approaching her for sex. She had, yes I said had! even gotten to the point where if I kissed her she would get annoyed. I had become the good husband with no sexual value even though my wife would make comments "you have such a nice body I don't understand why I am not attracted to you." Of course, these comments would make me want to rip my hair out in frustration. I have read all these books on how make a marriage work and crashed and burned every time.

Even one of my best friends from Florida visited me one day and said, "what the hell is going on between you and your wife? I have known you for years you use to be a lady-killer, what happened? Back to reading your book, after I had read half of the book she started to ask me what I was reading. I said a self-help book. I told her that today I was feeling very different. I felt like a new me, without explanation. I continued to [do the XXXXX technique] until bedtime. She asked me if there was anything wrong. I said no I feel great.

She kissed me a few times and hugged me hard. I said goodnight! Again, she said is there anything wrong. I said I feel good and I enjoyed my evening. Again, she hugged me and kissed me. Inside I started to smile. This bastard that wrote this book has something.

Today, my wife called me twice on my cell phone and told me she loved me. This is the first time in one year she has said I love you first! I have finished the book in less than 24 hours. I am about to start reading the supplements [SUPER BONSES]." George G - Maryland, USA

She looked at me and looked at her legs with a smile. I remembered what you had (CR) said, all information is important.

...

I have always taken my time. However, this time I decide I would not **touch her pussy** for a minimum of one hour of kissing and foreplay. After about 30 mins. She kept pushing my head down to her pussy. I kissed every part of her body, not her [Purr Palace]. She was getting completely crazy. I decide I was going to play with my wife as long as possible. I went inside her in four different positions, just giving her a taste. With all the crap, this girl had put me through lately, she was going to suffer. She asks, "are you going to cum?" Me, "No I am going to play."

I am the cat and you're my ball of yarn." At this point **she was push my fingers inside her** and my head down between her legs." I don't even think she could hear what I was saying. **She came very hard.** She almost fell to the floor! She got on top of me and went to town. We made love all over our living room for quite a while. Afterward, she got in the shower, I could hear her say, WOW! That was the best sex I had with my wife in about two years! She got out of the shower, kissed me, smiled and said, happy new year. She went and studied with a smile and I went and watched football with smile.

I figured that since we've been together for 18 years, I don't have to do anything special, she'll always be mine. It's beginning to feel like the first few months and years we were together. **In only (1) Week.** ... It's very hard as a man to admit that your thinking is flawed, that your doing everything wrong. **Your work is really better than therapy** or many of the books out there that I've read. ... This past week, I created enough sexual tension that ultimately lead to a **sexual explosion! We had hours of mind blowing sex for the first time in years this past weekend,** and it's all because of your approach and techniques I used. Your philosophy behind your work is much deeper than just sex. It's a way of life. You really have to work to have a great relationship. Even if the other mate isn't aware what your doing or isn't actively participating, the changes you incorporate naturally rub off , and without them actually knowing it, the relationship begins to improve almost immediately!!! Chapter 8: "These reports are very powerful"

Hello CR James,

I purchased your ebook SSP a couple of months ago, but I haven't been able to sit down to read it yet because I've been so busy. I did, however, start reading it last night. I read some of the reports that you sent with the ebook, specifically Super Lust Buttons, Sexual Perceptions, Magnetic Charisma, Levels of Communications, The Men's question technique, the seduction formula and the Hate/Love Swing.

These reports are very powerful, but I have some questions about how to use these formulas, techniques, etc... By the way I'm great at the Hate/Love Swing technique. This is something that I experience in several of my past relationships, which happened by chance.

Kevin C.

Chapter 9: It's fun to make women giggle

"...These are things that have been very hard for me to plan with her in the past. Oh, in my last conversation with her, when I [performed the technique that is on page 137]... Well the reaction I got was, she giggled like a little girl, then said [????]" A fan, CM, San Francisco USA

Chapter 10: "...she almost hurt me when she attacked me trying to kiss me!"

Hello, First I have read your ebook super sex power several times. Every time I learn something new. I have started to put into practice most of the techniques that you explain, and my girlfriend is noticeably more affectionate towards me... [after performing the XXXXX technique] she looked at me like I was crazy, but she had the best game of her league so far, and when we got back to her place after the game **she almost hurt me when she attacked me trying to kiss me!** D.R. - Wisconsin, USA Note: All testimonials are 100% real and unsolicited

Chapter 11: **Woman confesses that Man With Sexual Value makes her go crazy!**

I just wanted to tell you that I am a woman who can attest to your theories ... You are 200% right on the "sexual value" and magnetism powers. I have had sex with both kinds of guys.

One who thought they were doing the "right stuff" but barely turning me on [versus] someone who could turn me on completely with just a look, a touch, a kiss. The differences between these two men are night and day. Ironically the man who had this magnetism was 10 years younger (22) than the man who could barely turn me on (32)....

All I can say is this other man had the magnetism and "sexual value" that still **makes me go crazy just thinking about him!!** Not nearly enough people understand what this means or how it feels or why it's so amazingly intense to be with someone like him!!

"Jules" Note: All testimonials are 100% real and unsolicited

Chapter 12: **It does not take long to see a difference ...**

I should never have used the SSP techniques to flirt with this girl. They are TOO POWERFUL and now she says: 'That explains a lot. You obviously don't trust me. And I obviously don't make you comfortable because I've never seen you get even slightly wild around me. Next time you go to experience some fun call me.' Date: 2/3/2005 09:21:06 -0500 From: "F Figueira" <ffigueira@xxxxx.xxx> To: "CR James" <cr @superhappysex.com> ...Since I started reading your work, our relationship has solidified as opposed to the loose affiliation it once was. I can not stress enough how much [A particular S.S.P. Technique] works! You state often, [something CR James states often]. I used to confide in my brother, asking if it was normal to be with a girl that had a sporadic sexual libido. (as you have written about finding excuses) Then I started reading your work. My sex/no sex ratio is inverted now. Yes, there are still some nights I do not get sex, but this is much less often and I learn from these nights. I don't know if I am being overzealous, but I really think you are on to something with your theories. I used the [E.F.M technique] yesterday casually. ...

We had some drinks, played pool with people we met there. We both have flirtatious sides to us, so we talk a lot to other people when we are out together. She kept coming over to me and just kissing me and using emotional talk. Towards the end of the night I went to the bathroom, and she comes out of the girls room. **She grabbed me by the collar of my shirt and dragged me into the men's room.** Well, I think I hit a spike in my sexual value last night, because she only had one thing on her mind when she pulled me in there. Now she is asking me to come over to take a nap after work because we are both hung over from last night. She never asked me to do that kind of thing before. Thanks again, F.F. I just read 26 pages of your ebook and will have no trouble recommending this book to anyone. I recognize the fact that all belief systems are false because they are insufficient. Being insufficient, they attack anything outside their accepted view of the world and what they would most violently attack would be the truth first and then anything that might be attached to the truth. ... Sorry for the rant, but I wanted you to know that what you say is not fluff. It is too bad that the only place I can **find honesty** is in a book telling me why I am such a failure at sex with a wife who loves me very much. (ha) I am a Mensa and my wife was a systems analyst before she retired. I am spending my energies on trying to **see and hear what is real.** This is what I have gotten in the first 26 pages. I am really getting to the point of all this great recommendation. Or perhaps I should just tell you the problem I have been having in my life - because I firmly believe that if I can completely solve just one thing and understand it fully I will understand everything. (otherwise nothing is connected and this is impossible). ...

I have been coming to a place like you have described by page 26 for all this time and now here it is. **I am talking about a way of seeing the world.** I am talking about a way of forgiving the world and I am talking about a way to forgive myself. I am talking about finally being able to be a husband to my wife and give her the happiness she deserves. Here is the funny thing about it. I had no idea how to do this until I started reading your book.

... PS I know that you have already been told that the unexamined life is not worth living - that would apply here as well.

From: "Carlo ***" <carlo***@hotmail.com>
To: cr @ superhappysex.com

Dear Cr: I just recently got your book - and I am definitely seeing the value - I am using some of the techniques of building Sexual Value and positive compliments on the woman I have a plutonic relationship with. Not only that, I am taking that into the social world and meeting and getting other women's numbers. I definitely want to break out of the pussy zone, and if not with her - then with other women. She is currently out of town so she has been calling me, and I well I told her, I have been busy, and that I have been meeting women -

What is interesting is she wants to know their names. Who they are - she even asks about them when we talked again. What I find interesting is that I am a part time playwright and that is how I am meeting some of these women - I mentioned to my plutonic friend that I will be having auditions for a new play I wrote, in the next few weeks. She then asked if it was okay that she sit in on the auditions. She asked this after I had said that some of the women I met will be auditioning for the play. Now the interesting is, she has never expressed an interest before in any of the plays I have been in or the craft of acting, other than going to my plays. Also, since I have been acting positive and busy, she is telling me now that she can't wait to get back and have some "fun" with me by going dancing and going out. These are things that have been very hard for me to plan with her in the past. Oh, in my last conversation with her, when I [performed the technique that is on page 137]... Well the reaction I got was, she giggled like a little girl, then said [?????]. A fan, CM, San Francisco USA

Hi Professor James!

Thank you so much for all your examples and e-mails... They were really helpful and I learnt many things...

However, I don't see any reason to forgive you... as there is nothing to forgive! You are one-sided and so...? It's already very courageous to do such things and to help so many people.

You are a nice professor! Unfortunately I cannot afford to buy all your books... but I hope I will buy them one day when I'll be more rich (or when I will have enough money).

Your e-mails helped me a lot already and I am more happy in my life thanks to you.

Sorry do not ask: I am not ready to tell you why or how or anything else about my life... Sorry about that.

Finally sorry for my English, I am not a specialist. It takes me each time quite a long time to translate your e-mails... but it's good anyway because I think I improve my English by reading them!

So maybe you didn't know but you are also a teacher for English ! Thanks for that too.

Many thanks again.

Wow, what a relief it was reading your guidebook on "Levels of Communication." I discovered almost immediately that I, a man, naturally tend to communicate in the way you ascribed to women--indirectly and interpretively. This explains a lot about why friends who've tended to annoy me by being too obtuse also tended to have more problems communicating with women than men. It also explains why I've

and where their viewpoint comes from. It's such a pity that I've been in a thoroughly male-dominated field ever since junior high school. Thank you so much for ever so slightly increasing my confidence that women will know what I mean.

Subject:	Your books can't be beat! Long success story
Date:	Wed, 17 Aug 2005 14:11:21 +0000

CR James,

Man, your books should be the basic knowledge that all boys are taught in grade school! I wanted to take the time out to thank you for knowledge

that doesn't just tell you how to get women, laid, etc., but actually IMPROVE YOURSELF! I know it's long (5 paragraphs to be exact), but there's so many good points that I had to tell you my success story so far so that it may help anyone else out as well. If you need any more details to help anyone out, let me know.

To sum my progress all up, I have been married for 3 years to a beautiful petite super-smart, black but exotic looking 5ft 2in 110 pound wife that used to model and everyone even Ministers in our church (I'm employed there) says she should model (or women hate on her because

she's got it like that *LOL*). Anyway, she's as humble and down with guy stuff as it gets, but what happened was the sex was off the charts in the beginning, but I got LAZY and into WUSSVILLE (didn't know it then) and all of a sudden the sex barely happened and I was getting good excuses (like she would always be busy or tired in some form or fashion, etc.). Keep in mind that both her and I were master players and had our friends wanted to pimp like us because they thought we would be the last ones to settle down the way we had it before we hooked up. Now I have bought and read your books since June 24th this year (wife knows I bought and downloaded something, but I told her it was just some men stuff to make me a better man), and I know **your information was a God send**, but I was having trouble reprogramming myself to send the right signals all of the time. I was willing to change, but like you said, it was hard as crap to do so! The patience part is where the struggle is. It seems like what you are doing isn't working, but it just takes a LONG WHILE to build the sexual tension, value, etc. points to the level where she will act on it consistently. Dating and getting some consistently is easy, **but being in a relationship (MARRIAGE) for a while is where real skills are needed.**

After reading SSP_1007 (Magnetism) along with lust buttons, married women are easier to seduce, etc several times (at work and at home *LOL*), it finally clicked yesterday and the I DIDN'T EVEN REALIZE I WAS SENDING THEM anti-seductive signals ceased to exist and I was sending ONSLAUGHTS OF THE RIGHT SIGNALS! I was frustrated so long with not getting the sex that I was used

to from her that I was projecting those signals without even knowing it, so she wasn't even open to approaching me sexually (hence anti-seductive signals) no matter what right signals I sent. It finally became natural for me to think about directing her mind state and making her happy instead of me trying to manipulate her by doing things to get blown and laid out (pun intended) *LOL*.

Here's the juicy part: I was using her level of communication to flirt like crazy with her on the phone during lunch break (it wouldn't work so well before because of my anti-seductive signals), so when I got home, she had this look in her eyes like he's my MFM when she greeted me. I was [doing something powerful]

As soon as she cleaned the table off, she came over to me, and lets say **talk about sexually intense**, I thought I was in the middle of a porn being filmed! **I finally brought out that nymph in her** that I once knew and I didn't make my looks at her obvious or moan, so she kept getting into it more and more trying to get my attention!!!

About 3/4s way into the sex, she says, now did I get your attention. I

Get Your Copy of Super Sex Power at <http://superhappysex.com/>

(so that You can Seduce Women Using SSP Seduction Techniques)

told her yeah, and then made her beg for my love rod (**she actually begged OUT LOUD for my love rod!!!!!!!**) by only putting the tip in after she had the whole thing while she was riding me, etc. When I felt the begging was acceptable, I slid it all the way in and **I gave it to her from the back** like she was on punishment and she couldn't pull away because we were on the couch! When we were done, I told her in her ear [something powerful]

...she is so fine, beautiful, and I love her.

Normally, she would say I love you too, but she told me she loves my love rod!!!

I got her!

This is the Rated PG version of what happened by the way *LOL*.

The last part: When I [did something powerful] she was glowing like no tomorrow, and had that I'm going to **screw your brains out** when I get home from work look in her

eyes that she had yesterday when I came home. I think this [a particular SSP concept] where you can gain a TON of sexual value points.

I heard the arcade noises both after I tore her up before we went to the movies last night, and when I walked her out to her car this morning. **That INTENSE look in her eyes is PRICELESS!** Thanks CR!!!!

P.S. Just have faith and patience that if you stopped your anti-seductive signals and are sending the right signals, the sexual tension will be building in her no matter if it seems like she'll never act on them.

Don't wuss out by showing that this waiting is bothering you and I promise you, when she puts it on you sexually, the wait will be well worth it!!!!

Hi!

Thank you for answering so quickly! |

You asked me what I think the biggest issue is... I wish I knew! But some of it, I think, is that when he is horny, and I'm KIND OF in the mood, he advances too fast to “pussy and tits”, if you know what I mean... That is not “where” **I get horny!** I want to feel that he is a man, that he is confident. I want him to SEE me, to listen when I moan, and understand **what he does to make me moan...**

I've told him this two or three times, but he seems to remember for one night only.

Sorry, I feel like I'm blaming him for everything and taking nothing of the blame myself. But I've ransacked my mind so many times to understand why I don't get turned on by him as easily as he gets turned on by me, and I can't find any answers. He is beautiful like a model, everything “looks right”. =)

But his sexual self-confidence seems to get stuck in a dead-end-road when I don't give him confirmation, when I don't respond positively to his sexual advances towards me. He seems to take less and less notice of the signals I try to send him... Maybe I'm too subtle, I am a bit “embarrassed” of my sexuality, maybe because of the way I was raised; sexual things was not to talk about.

Maybe, maybe...

I talk of a dead-end-road. I mean porn in particular. **I really like porn myself, and like watching hard core films**, like him. He loves it, and loves that I like it, he says he feels lucky in comparison to his friends, their girls don't like porn. But sometimes it seems to me that he gets too much “inspiration” from porn, after all, it's not like the real thing... Things (fucking) get too stressed, and **he fucks me fast (oh God, that's good!!!)**, but then he gets too horny, and stops to keep from coming. I'm on the brink of coming, but he never listens to my sounds, and he thinks he has to fuck me for at least fifteen minutes for it to be “successful”. I told him this a few times, but the message doesn't seem to come through. I don't want to “complain” every time we have sex, either...

So, there you go, a few of my thoughts. Maybe confused, but that's what I am.

Hugs, K=)

Chapter 49: GUILTY GUY: SSP Customer feels Guilty about seducing his wife and he is concerned about his new skill (as if it is a bad thing. Huh?)

--- Michael ***** <*****@bellsouth.net wrote:
CR,

Moving thru the readings. I am guilty guy!
Irrational guilty guy. **Already had her initiate sex last night, wow!** Learning to split guilty feeling away from seduction might take practice. I don't want guilt-induced sex. I do want her to want sex with me. Told her that I am attractive because of my intelligence, she must have thought if other women saw me that way because she asked if I am attracted women who are attracted to intelligence (who she thinks are not like her), I said they are boring. **She initiated sex.**

I feel uncomfortable with this "power" because it sets me ahead of my male friends. This is intimate stuff, and they (like most guys) suck at it. Will guys abandon friendship with me or what? What has been your experience, given I am not going to be as graphic as your descriptions.

Energy,

better listening or even something interactive like an educational board game. (Like Robert Kiyosaki's Cash Flow board game) Being an outside the box teacher you probably know that there are several levels of learning and reading and wrote memorization are the slowest forms. (Hell, Kiyosaki might underwrite the whole thing if he reviewed your book. He says he's always putting money into projects that are winners. and your information is definitely a winner.)

I did make the mistake of trying to read some of the special information that came along with the download first because they were smaller files. That was a mistake. **(You may want to warn people to read things in order.** At first I thought you were being way too shallow and I felt you were giving examples that were too vague and in a non-measurable form. What I now understand is everything is built off of the information in the magnetism book. Silly me.

Now that all that is said I would like to start over. I am thoroughly impressed with your work. You do a great job fishing out principles and then apply easy to use examples. I of course will need to **re-read the magnetism book several times** and start practicing while I go. While I got bits and pieces throughout the week I really got a bigger picture this weekend. Thanks. Of course while going through all of this I was slapped silly over and over again by some of those descriptions of anti-seductive behaviors and personalities. Then I was equally built up several times over for some of the things I've done right. Wow what a roller coaster.

Anyway I have spent the last three days looking for some of the things I may need to eliminate and some of the things I need to work on. (In my behavior/speech patterns) One of the things I've been missing was my wife has started a job that is an hour and a half away. On top of that she works 12pm-8pm and she has responsibilities that keep her after hours.

Well I had been griping that she needed to get home as soon as possible for the past two weeks. But, I had not given her any compliments for handling the work, traveling so much or being away from home. I decided to do just that. Well, She dragged herself in around 1:30am and I was sleeping off and on since at least 12. I woke up enough to welcome her home tell her I loved her and as I climbed back into bed to fall back asleep I said something like, "I just want to say that you're doing a great job, handling everything at work and commuting and other things". I can't say it was the comment I said or what, but 20 minutes later she was "waking me up"! Sleep be damned I was wide awake, and **she was hotter than she'd been in many many sexual encounters**. normally she wants me out as soon as both of us have cum but last night she just wanted to keep going. **She actually apologized.....** Which maybe, but she didn't try that last month or the month before and so on. Impressive! I'll keep you posted as things pick up.

Chapter 55: Lady from Norway is tired of taking Libido Pills. LOL (I think she realizes that there is nothing wrong with her at all (gasp))

First of all, thank you for having a different perspective on this subject than 'everyone else!'

I am a woman of 27 yrs, from Norway. I have lived with my wonderful boyfriend for 5 yrs. I just bought the book for him. I haven't read the book myself, and I don't intend to.

I was kind of encouraged when you emphasized several times (in the e-add) that the man shouldn't let his woman think there is something wrong with her, if she doesn't get turned on.

We had storming, hot sex for the first year or so, but since then things have been miserable... I rarely get turned on, and I have started thinking there is something seriously wrong in my head. I get physically aroused, but not mentally. **I can be "wet"**, but still not want to have sex with him. I started doubting my feelings: Do I really love him? And the answer is: YES!!! So what's the deal??

We've talked about this to boredom, but not much has changed. I think we've both reached the conclusion that I don't have that strong a libido (as he does, or at all). This seems a bit strange to me, though, since I see myself as a sensual and sexy lady(lol). He thinks I'm sexy, and tells me all the time (too often in bed, when I get "afraid" of him approaching me sexually...).

I really hope you can teach him some tricks, 'cause **I've run out of pills to take.** ;)

Sincerely

Kirsti

Thanks James,

Really appreciate the response and info. I've been reading the part of MFM and I find it so much along my line of thoughts and observations since I've been married these past 12 years.

Like you I have been obsessive about how I can make my wife want me and desire me more often and I totally agree with the persona thing, health, and creating the right atmosphere, etc.

It really works because I don't believe I've ever been turned down unless she was on her period, had the flu, etc., she really is a great partner for me I mean we have sex on an average of 1/day, seriously I not trying to brag, but maybe some couples have it more often...I don't really know. It's what I've watched and learned about her and it is true when these things are clicking she becomes more mentally in "the mood" to have sex.

Despite all this knowledge and just trying to analyze how I can be a better lover and all, as well as how I can get my wife to initiate sex more, I noticed that my wife seems to respond and is more sexually turned on not by a certain type of MFM....

I've noticed how she loses her personality whenever she's around them and how she becomes somewhat of a different person, complete with that certain "glow" you talk about.

Thanks!

Wow, what a relief it was reading your guidebook on "Levels of Communication." I discovered almost immediately that I, a man, naturally tend to communicate in the way you ascribed to women--indirectly and interpretively. This explains a lot about why friends who've tended to annoy me by being too obtuse also tended to have more problems communicating with women than men. It also explains why I've always felt uneasy about communicating too directly, and tend to try to figure out what someone means and where their viewpoint comes from. It's such a pity that I've been in a thoroughly male-dominated field ever since junior high school. Thank you so much for ever so slightly **increasing my confidence** that women will know what I mean.

Hi Mr. James,

I actually bought this for my boyfriend because honestly I care about him but he does not inspire me. Our sex life has gotten to the point where I go to bed before he does and **masturbate** and he will wait and then come in (when he thinks I'm ready) and kiss me and touch me a little and then **when I cum he gets on top and fucks me** for a little and then rolls over on his back and waits for his blow-job. I can't tell you how miserable this is. I noticed in one of your reports (I think the first one) then you mentioned something about a woman wanting you to wait a year for sex and how this indicated that there was past abuse and female problems. I hope you are not suggesting that this type of woman is useless. I until I was sixteen,

does this mean that these techniques won't work on me? Like I stated in the beginning I bought these for my boyfriend and I have read everything and it turns me on just reading it. But he only read the first 1 or 2 pages and hasn't touched it since. He of course blames me and basically the way he is that he wants me to turn myself on and then **jump his bones and fuck him** and do all the work. HOW THRILLING!!!! I only have sex with him at this point to save the relationship because we have a baby together. But to be honest I can't see myself spending the rest of my life like this. Do you have any suggestions on how to reach him and see that i want more and I am thrilled at the idea of him being able to get in my head and understand how I work. He just seems so lazy!! HELP!!!

Subject: Why I bought your ebook All headers Hey CR, how are you doing my friend? Well I have to tell you, if it weren't for the **powerful information** in your books, I would have returned it at the first sight of a grammatical mistake. I mean come on man, your text editor should contain some kind of spell check function :) LOL I kept correcting your grammatically incorrect sentences in my head just so I could keep reading it. Now I want you to know that I'm very picky about what I buy, in fact if I could get something from a friend and not buy it, I would certainly do that. But with you material, you hooked me with the idea of **sexual perception**. As I read your free reports, I kept wondering "how do I get perceived as a highly sexual male?" which is exactly where you wanted me :) I've been studying persuasion for the past 5 or 6 years, and have **read a lot of garbage during that time**, including stupid hypnotic language tricks that would instantly get the customers to salivate and buy your product. (I'm sure you know who I'm referring to) ...I finally saw the real secret to persuasion. Given that his system is based heavily in perception, when I read your reports, it was like a breath of fresh air. I thought, hey this guy is on to something here. Previous to that I used to think to **seduce girls** you had to know all these techniques, and learn these "patterns" and recite them to her to get her panties wet. Well, though I never actually tired it, I thought this was flawed somehow. Your book delivers right on the money. In fact if it were better written (i.e grammatically correct lol) it could be published and be made into a bestseller overnight as guys would simply recommend it to their friends and no advertising would be necessary. You could literally take the divorce industry our of business ;) Today, I'm going to read your book again, in fact I printed all 163 pages of it, and I will take careful notes so I can start applying it. Thanks again for writing this book. I believe it is going to change my life, as soon as I start reading it. E P.S. Can I get any new "beta version" ebooks you're working on? I think you gave some to that russian dude who only dated american women. LOL

CR James,

I want to first thank you for your e-books. They helped me out tremendously.

Okay, let me paint a quick picture before I ask my question. I've been happily married to my lovely wife for over 3 years now. She is a drop dead, stop traffic literally, 5ft 2in, petite, in shape gym certified, black but exotic looking, ex-model (well she still does fitness modeling) who can't wear dresses and such that average looking women can wear in church (and I am very well known, respected, and employed in our church) or she'll get labeled as a sinner and a whore *LOL*. Women (yes I said women), let alone me can't keep their eyes off of her in and out of church, and I am constantly told how pretty my wife is by female co-workers, etc. She has to stay covered up with a jacket, or she'll draw too much attention to her both from men and women. Women always compliment her beauty when were out together. She's also just as intelligent as she is gorgeous, can you say she'll have her MBA in a few months, successfully worked for a BIG 5 Accounting firm, and she already runs our home business (I'm the VP *lol*).

I just wanted to paint a good picture of how fine my wife is CR. I am very attractive, knowledgeable, and intelligent myself according to her and other women (they try get my attention in front of my wife everytime *LOL*).

We have a very faithful, happy, and communicative marriage where we can talk about anything, good or bad to each other.

Now, thanks to your e-books, I used to be the guy that could pull a fine woman with ease, and get to sleep with her (before my Christian walk began *LOL*), and that's how it was with my wife at first, but I am confident enough to admit that I didn't realize over the years that I began doing little annoying things that was killing my **sexual value** with her. At first I thought she was getting a low libido (but it was higher in the beginning), and I know our diet and a few other things were making matters worse. Since your e-books (been less than a month ago), I have recognized what I was doing and **my sexual value has skyrocketed with her**. Not only this, I foreplay with her mind at work all day long through e-mails, phone calls, our time at home, etc, communicating to her on HER level. I used to always wonder why a woman would come left field out of no where with things before and now thanks to levels of communication, I know how women think! Thank God! *LOL*.

does), and you got MAJORLY TURNED OFF and PISSED and told her she killed the mood in a cool manner, (we even started out watching a porn and **she was very sexually intense** the first round before we turned it off to take a break), then you UNCONSCIOUSLY out of your frustration or disappointment WUSS FACTOR :(rubbed it in by explaining how you felt when she asked you if everything was okay, and she still wants you to cuddle with her afterwards

(body language while sleeping and she lets you do it), and the next morning, you can tell that she is upset about what you said (whether you're right or not), but when you talk to her, I am getting the vibes that she is WAITING FOR ME TO PASS SOME MENTAL TEST of hers by saying or doing something.....because of my sexual value I can tell that she still is sexually attracted to me (I THINK THAT'S IT, SHE STILL WANTS TO **RIP MY CLOTHES OFF AND RAPE ME DEEP DOWN**), One last thing: The funny thing is I KNOW she feels the TENSION (sexually), because I EVEN FEEL THE TENSION AND WANT TO **BANG HER OUT!**

Thank you. It works!

You are a genius. Your book is very unique in the seduction realm. If I have questions about some of your theories where can I go?

Chapter 71: "I love being better equipped to figuring out what's going on in a woman's head..."

Hello CR Have a bone to pick with you. Why the hell don't you market your book better?? just like to say that I wish I'd found your book years ago.. Also like to say I firmly believe it's something every bloke in the world ought to read.. Lemme tell you a bit about myself first.. I'm a 30 year-old aussie veterinarian with a fairly analytical, but also fairly creative, mind. I've always been a happy positive bloke with a lot of energy who makes people in general feel good about themselves. I have a strong family and some close mates within a wider circle of friends. I got married almost 3 years ago to my favourite person in the world, a girl called Jen who I'd met when i was 17 (she was 15). We thought it was for life straight away, but we did have two year-plus long breaks in our relationship due to circumstances/travel, which we hoped would allow us room to develop into the adults we needed to be to make it work..

Mate my life rocks, generally. Personally I'm always looking for personal growth - **you're either green and growing, or brown and dying**. I've read stacks of material on attitude, leadership, ambition, communication skills, personalities, the differences between men and women etc etc. Some of it has been very good, some very good in parts, some average, and some downright misleading and dangerous. So, I think my saying that I was blown away by your book has some external qualification. It's not like it's the first personal development book i've read. Your book and the supplements I've read have not only opened up a whole **stack of new doors**, but they've brought to the fore the cheeky side of my personality again, which had been lying under a log for a while and had started to get a bit pale and pasty...

I had what I thought was the **best relationship in the world**, until little cracks started to open up into big cracks about a year ago.. We'd been living in the UK for 2 years at the time, with a view to going home at the end of this year. A month ago I found out my wife and my best mate were seeing each other, and although I found your book on the internet (quite by accident whilst doing, would you believe, a search on bromide and libido-REDUCING supplements for myself!) about 6 mths ago, things were already too far gone to peg back completely. I made inroads however, and more

Get Your Copy of Super Sex Power at <http://superhappypex.com/>

(so that You can Seduce Women Using SSP Seduction Techniques)

importantly I grew as a person to the point where I have been able to understand and fully accept what has happened. I know I would have been in a different place now but for some insight into how women work... While there are more factors in our relationship than discussed in the material of yours that I have, I'm pretty sure we could have worked through them properly had I found your book earlier.. hey ho - that's the learning curve eh? (meeting so young etc.. although we saw some other people (both openly while together and while on breaks - partly because [she] got off on the idea of me being with other women), there was a lot of growing we had to do outside of a committed relationship.. I wonder whether you have any thoughts on this..? I think the 'soul-mate' concept was a factor however...)

So, perhaps your book hasn't saved a relationship this time (maybe it has - but it's a big maybe from my perspective), but it has definitely **changed my life**. I think it's fair to say there are a few girls with smiles they can't wipe off their faces thanks to you mate. I have loved to see changes in the way people are in general, but especially females, respond to me in everyday life. I'm getting to know what to expect now, but I have been amazed at the connection I've been able to develop with females, **some in an incredibly short space of time** (minutes in some cases - not that this is really important, but it is kinda exhilarating to meet someone and feel that connection so quickly). Whether it has led to sex or not has ceased to be that important, except for improving my game and figuring out where I may have done/said things differently to achieve a different result. I love being **better equipped** to figuring out **what's going on in a woman's head** (things even she doesn't know are going on) and watching (sometimes with **frightening predictability**) the responses to what I'm doing or saying... press this button, does this; press that button, does that... mmm wonder what happens if I press em both at once... ;) If you've got any other material out since I purchased SSP, def interested - I'm sending a mate or two, and both my brothers, your way too. Dunno whether you've considered translating any of it, but my old man does freelance translating into both french and spanish! Seriously, **the world needs this**. but you knew this already... Anyway, if you want an endorsement for your page or whatever, all I could say is this...Is your wife/girlfriend, or more importantly, *your* life, worth more than 40 bucks, or whatever CR charges for this? If not hit the little cross in the corner of your browser :) thanks again cool Bruce *****

CR James,
I found this book to be **very insightful**. There are many things that are obvious that I simply did not put to use. Deep down you know that to keep a woman happy you should keep her on her toes, but it is hard when you love them to not try to be as nice a possible. I almost fall into the category of **PUSSY**. That sucks.
Keep up the good work.

Respectfully,
Tony Bianco

HELLO JAMES,

Very fascinating that you understand so well **how a woman works** I have a suspicion you are a woman or have been one before! :)

I am a therapist and your material has been **very beneficial to my clients** but I need help too!!

In a relationship that goes through some difficulty where the man then loses his sexual value, do you think he is able to regain it? Yes I am talking about my relationship. I seem to have so much of power over him that i sometimes find him pathetic. I want to be an animal with him but because of the past I seem to have a block. **I am generally horny** but I stop myself from giving in to his advances. To the point now it has become a habit and I

feel shy to give in!!!

Hey...

I have read through a lot of your stuff and I think it is very solid and it is the **most intelligent and balanced and logical advice I have read so far.**

I need some further clarification from you though because I am having a real tough time. I just got out of a relationship because it lost its flair

mainly because I was too much of a **PUSSY** and when I realized it I became too much of a **DICKHEAD**. I followed it up with the same formula right after with the next relationship. At the end of your main book you start to directly address a balance act under your section about MFM + GF = [???????]. I am hoping you can elaborate a little further for me. Basically If your formula were a ride it would be a straight line right in the **sweet spot** in a perfect location. The way I seem to be is more like a rollercoaster that is too shocking or mean or too nice and only ends up in the **sweet spot** by accident from time to time.

Hi James,

Thanks for giving me the time.

It is a new relationship...7months. At first the attraction was his principles. I had come out of a relationship where my man was unfaithful to me (even though the **sex was the greatest ever!!** He has this idea that God has given him this gift to **satisfy women** and so he must! he is a natural to all that you are talking about) Anyway the attraction with this other was that I felt for once I did not have to keep tracking him. He is Italian and struggles with English. Some times I think he is stupid! The attraction is wearing thin. He does not stimulate me mentally! He can have **erections after erections** immediately one after another (ok I admit that was an attraction too but the point is I feel angry with him and don't want to have sex with him.....although **I am craving for a good one!** Then I think about my ex! I want this relationship to work because Mr Italian loves me to bits and he is a good man. What is the point of being with an sexciting person who is going to let me down? Society has changed and it is difficult to build a future with someone on shaky foundations. I have tried helping Mr Italian by telling him about the things you discuss butargh!!!! (maybe we could translate your works into Italian)

Now he does not try to have sex with me because he respects me too much! But it scares me that **my body is screaming for sex** but not with him! I want this to change.....don't I? Or maybe I should not play it so save and take the risk of being hurt yet again? I am 43 and still very attractive and look like a 30 (lucky me) but I want to settle and have a child. Time is running out. I am at the moment even thinking of being unfaithful!!(disgusted with myself)

I am prepared to hang in here if he is able to regain his sexual value.

HELP!

cheers

Hello First let me start out with a compliment , Man you really know your stuff and the easy to follow simple terms , **the way you write is unbeatable.** I used simple techniques first I did a little something I sent her a text message telling her [“a technique in SSP”]

I also told her [something else that works like a charm] That day I sent the text I also told her [“one of CR's favorite things to say to a woman”]. The moment she came home from work **she actually tackled me on the couch!** So I said hi as I always do with a hug and a kiss. So I'm sitting on the couch and she puts her feet on me I looked at her with wide eyes and said [“something else”]. So she grabs me and I can tell how she kisses me that she's trying to entice me to go upstairs well I said hey I

gotta bail and run home to take a shower cause we were going to see a concert. She said oh ok.

So I waited a few minutes and went upstairs with some bullshit excuse and **she was in her panties putting lotion on**. So she grabs me throws me on the bed I kissed for a minute or two and said listen I'll be back l8tr she said oh ok. Like a little girl who lost her pet..LOL so I leave come back l8tr and she's asleep on the bed. ATTENTION competition....so I did [something], grabbed her hand then let go. She grabs mine and I let go. She kisses me on the cheek.I said [a one syllable word] and **it drove her nuts!** We get home and she is hugging me [so that I can kiss her] I know she was waiting for me so I just [did something powerful]...and she grabs me and just starts kissing me.

I [kept building the sexual tension] for about an hour, DUDE don't know [exactly what was going on] but I wasn't touching her anywhere but her back, her hair, her thighs. I didn't touch the sweet spot!

And out of nowhere **she scoots her panties over to side** and tries to make her own penetration! [after that] it was on!

NEXT TIME I'M DOING **THE FISH FILTER thing** [a "fan-favorite" technique found in the ebook Lust Signals].. LOL **You are the GOD of seduction!**

Steve PS BY the way I don't catch Poison IVY.. LMAO

Thanks for the great essay on **smiley face!!** I'm about 1/2 way through it and can see how it can not only be fun, but like you say, **powerful**. I remember that girls like fun things too. I might [use it] for the women at work! Maybe eventually women I don't usually talk to will come up to me and want to [do something "magical"] that would be crazy. More in line with your essay though, yeah, I can so see how it can be used to **increase my sexual value**.

I have a quick question, I'm sure it's an easy one for you. There seems to be, with the advent of the "working woman" you know, many more girls my age (25-30) that are quite business oriented, always well dressed, which is a plus I think, and seemingly very independent. You know the type, they're not dull and austere, just more shielded it seems. Like, what is the key thing or approach that sets one guy apart from the hundreds of others that she sees every day?

It just popped into my mind, that my dance teacher's husband, who teaches too, uses [something similar to the smile face technique] with his students...which is second nature in him now, and really makes his students **feel great**. I know because I see it and have had several lessons with him myself, and he just makes you want to do great!

Subject: **Re: dude I am disappointed**
To: *****@yahoo.com

Hello CR, wanted to write an email. As you already know I have told you many times before **your system works** and it works well, **It's like magic**. Short story well sort of so sit back and deal with it. All kidding aside I have used your methods recently with **great success**, I have personally emailed CR asking him how to handle the girlfriend that THINKS she wants to date again. Well CR I did exactly as you suggested. She never brought it up but I did. Longer story shorter, well most cases she would call me ask me to come over and spend the night, so she started with the testing method by saying [something] can't explain what's going on I'll put it in email, I said listen if you think you need to date go ahead and date maybe we'll both find other interests that are better for us, maybe this relationship isn't for me, maybe us isn't for you. Well this 1 night I didn't confirm nor deny I was going out with the guys I was actually just tired she called and text me about 4 times thinking something was wrong with our relationship, I have no problems having sex with her because **I use your methods and create that sexual tension** not the minute were in bed but all day... I [do something powerful] and she gets to the point where she tries to get me to [have] sex... **I make her crave it until she is begging**.

Anyway I use this technique the same way I do when we are out or hanging out at home I make her crave me I give her a little than take away create excitement. Well CR she has 3 female roommates 3 now you know I use this to my advantage without it being obvious because only a fool would flirt with his girlfriends roommates but I still do little things like eye contact, confidence, compassion and being funny with every 1 of her roommates. Women can sense competition, women feel and know if her friends are drawn to a guy or not She knows her friends think I'm an outgoing confident guy with a personality. But most important CR I learned to be a man who thinks in his mind he has great sexual value I don't do shit to please her I do shit to please myself. We were all supposed to go to a concert Thursday well my girlfriend can't make it so she said I can't go do you wanna go? Knowing quite well she's not about to have her boyfriend go to a concert with 3 of her girls who think he's a great catch, So I said yea I'm still going, guess what CR she found a way to go. Jealousy can work to your advantage as long as she doesn't get crazy. I also told her I don't NEED another needy woman I want a woman to want me. Plenty of needy woman in this world and I had my fair share already. It's not what I said it's how I said it I told her what I want without being a prick or to pushy. Laid back and

mellow. Well thanks hard to explain so GUY GOTTA **GET THE DAMN EBOOKS** READ THEM AND TRY THEM. THE DESIRE TO BE SUCCESSFUL AND WIN WITH WOMEN IS NEVER ENOUGH EVERY GUY WANTS TO WIN AND **BE SUCCESSFUL** WITH WOMEN IT'S THOSE OF US THAT LEARN, LISTEN AND PRACTICE TO BE SUCCESSFUL THAT ACTUALLY SUCCEED.

ps NOT ONE OF THESE WOMAN MENAING HER ROOMATES EVER TALKS ABOUT SEX IN FRONT OF ME. WELL MAYBE HOW THEY DONT GET IT BUT NEVER MENTION SEX WIHT ANOTHR GUY. GREAT I KNOW.

thanks man

Chapter 82: Guys learns a trick to take a “proactive role”

Hi CR

I think the major thing in terms of getting more positive responses has been discovering who I am again and being pretty bloody happy about what I've found. As a result it's definitely a case now of [doing something powerful]

I think there's probably not much I'm doing that's extra special - I have used just about all your basic ideas in some way (yet to really explore the mind state ideas further and the stuff from your Lust Signals reports (which was **unreal**, but need to re-read it all)

One thing I have consciously done, and worked to develop the habit of [doing something powerful]...

I try to do this while they are still showing lots of interest.. then to come back This seems to give them more incentive to **take on a proactive role**, which then means I can get a bit more nonchalant about the whole process - that then seems to kick them up another notch in terms of their interest.

anyway, thanks again
didn't get the smiley face tech report, but def interested

Chapter 83: “In the past 2 weeks since I have read your book I can tell a big difference in myself and the way I act...”

Subject: Question

To: cr@superhappysex.com

CR,

A complete turn-around of personality is not the easiest thing to accomplish; much like trying to quit smoking cold turkey. In the past 2 weeks since I have read your book I can tell a **big difference in myself** and the way I act. However, at certain times I can tell myself slipping slightly back to my old personality. This is nothing major, but the second after an "old personality trait" comes out, I quickly make a mental note of it and focus on not letting it happen again.

I have reread your book 2 or 3 times now and I use it as a reference when I need reminding of **proper ways to change**. Now, as YOU were going through your transformation I'm sure that at least once you found yourself going back to your old "geeky" self (I

Get Your Copy of **Super Sex Power** at <http://superhappysex.com/>
(so that You can Seduce Women Using SSP Seduction Techniques)

think that's how you referred to it in your book).

Question: What did you focus on when you had moments like this? Anything specific?
You didn't have this book to reference back to at times. At times I'll just walk into the house and mentally [do something powerful]".

I can't tell you how much I appreciate your feedback!

Chapter 84: "I know I have a ways to go... I am the EH guy"

To: crjames100@gmail.com
Cc: cr@superhappysex.com
Date: Oct 16, 2005 10:22 AM
Subject: Re: Thank You For Your Order, Brad

Hi CR,

I have read half of this ebook and already **my mouth is dropping open** just because everything I have been doing and done with my significant and obviously past relationships was wrong and obviously unsuccessful.

I realized that I am an EH. I read that list of traits within the EH profile and it was me to a T almost. I grew up with 4 sisters and a mom and have always related to women well except in boyfriend girlfriend situations and any relationships I have had they've always ended sort of quickly or before they really get started. I am then left in the dust and they generally move onto their next "jerk" and in some cases they return to me to cut my guts out and complain about the loser they just dated. The pain of that sort of situation caused me to stop that scenario from happening again. I understand now the concept of my own Sexual Value and I have begun working on improving it just by stating the **simple scripts you provided**. I know I have a ways to go but I am the EH guy. I think it has a lot to do with my upbringing and I always saw the crap my sisters and female friends went through with the guys they dated and I never wanted to be like those guys. Anyway enough about that for now.

I don't know if you answer questions in the sense of Dear Abby, I'm pretty sure it is not your main focus but if I may impose, I wanted to ask specifically about the switching from friends to something more scenario. I am in a relationship right now that is friends but we have almost gone over the line of friendship on one occasion and this woman has told me before on a couple occasions that I do have everything she would want in a man but something is missing. I believe after reading a lot of the information I purchased that it is basically she sees me as a friend and not in a sexual context. The one time we stepped out of the friend zone it was a little awkward and that was my fault because I was shocked at that point and anxious and it was really just an extended make out session that was a great surprise but I was not fully prepared for either. We both not completely relaxed either. Anyway, **I know I need to increase my sexual value** to get her to see me in that context. I know your program will help me do that.

Thank you again!

Brad

Subject: Re: Seduction Games - Sexual Control and "Input"

First let me tell you that I really enjoy your emails. Although I'm happily married now for 11.5 years, I've always been intrigued by the **dynamics of attraction** and repulsion so I read on. Also, I like to keep up with new ideas and keep hubby interested and challenged. I found your site by accident while looking for info for a friend who was trying to get his new GF to dump him (a bit wishy washy, he hates to be the one to end it and watching his relationships in their deathrows can be agonizing.)

Anyway, I read your SUE report and this is a sick sick sick situation. It's almost like she's a character from a soft porn romance novel; though I know there are women out there like that because I have friends who have dated them. I guess it is a good example because it's so over the top.

Of course there are people out there who are not looking for loving relationships, people who are addicted to the trauma/drama. Who say 'oh, but he/she LOVES me' (or meets some other need) and think this is enough to allow them to be abusive. There are people who are so addicted to the abuse that they draw out the hidden/suppressed sadist in even the most mild-mannered and gentle/loving people. This type of masochist may be extremely controlling themselves and is projecting **their inner sadist onto an unsuspecting lover**. Often they are only drawn to people who are truly abusive, controlling, and sadistic. But your obvious point was that her husband (for a few paragraphs I thought she was maybe divorced from him) was not part of her world, was not doing his part to rock her world and make the neighbor's jealous. He was not picking up on **what his wife was craving** and at least **'roll-playing'** the rouse to keep her attention. Poor guy probably thinks if he is nicer she will eventually respond to him, or is equally in denial that he is still married in any meaningful way at all.

Also illustrates beautifully how some people are attracted by the very behaviors they claim to be hurt by. Sue seems as if she can only be happy with someone's boot pressing into her neck. She lays down in front of a door and writes "Welcome" on her stomach.

Perceptions go so much further. Look at a pencil. From the side, it is a line, from the end, it is a pink rubber circle, from the point it is 2 concentric circles, this is just a pencil, how much more complex is an interaction between 2 human hearts.

"A woman without her man is nothing."

A woman without her man, is nothing

A woman - without her, man is nothing.

If our language is so imprecise that 7 words in the same order can have opposing meanings, how much more so complex issues of the heart. If you choose to perceive every slight and insensitivity as a 'punishment' for something you did that was 'bad', if you imagine nefarious motives for even acts of kindness, then you are your masochist's own sadist. If your lover tells you that you are beautiful and you choose to interpret this as saying that you are dim-witted, then you are choosing to abuse yourself. How does the dynamic of the story change if when he said that she was beautiful, and with a flip of her hair and the wink of her eye she laughed and smiling, purred back, "and brilliant too" landing a bit wet one just under his ear. Had he responded that he loved her for her intelligence, she would have surely interpreted this as him saying that she was unattractive.

But you have a point when you speak with her, if she is unhappy, she is free to leave. When he is dragging her through a crowd she is free to drop his hand, walk away, and leave. Go to a movie, take a taxi or bus home, etc. She chooses to be with this person. Not that there are no true psychopaths who would hunt down an ex-lover, or people who find themselves legally bound to spiritual vampires, but Nobody can treat you like a doormat if you don't lay in front of a door.

Likewise for him, dating a woman who thinks you are an awful boyfriend is also a form of masochism. Often women find they can control their men by setting unrealistic standards for romance, support, chivalry, etc. and then rubbing their noses in it when they fall short. This can also be abusive and degrading to someone's self esteem. It works both ways. People seek out and are attracted to what they feel in their deepest soul that they deserve. If you feel you really deserve someone who is wonderfully loving and a great mate in almost every way, then you will find one. If you feel that you do not deserve to be loved and cherished but abused and emotionally brutalized, then you can find that too. Often in the same person.

Sue is a great example. She also (if she is a real person) needs a really good therapist.

Thank you again for your newsletter and a really great example.

Namaste,

L

for a more in depth study. I've had some successes and failures with increasing my wife's interest level.

SUCCESSSES

My most recent successes were this last weekend. My wife and I have started dating more and this past Friday we went out for another great evening out.

After [doing an SSP technique] for the evening she surprised me with some driving distraction (hasn't happened since before we were married) before getting home and continuing with a great evening in bed. Saturday I took the kids to my folks house and returned home in the evening in time to go to our periodic trip to the local dinner theatre. I continued in my real man role including [doing the tips in SSP]. When we got home, I thought that even though she is seldom ready for sex two nights in a row, I'd give it a try. After working for a while to get her in the mood.... I started to step things up a bit. She immediately stated that her "interest level was pretty low right now". I told her "that's ok, my interest level is low now too." With that, I immediately [did something powerful]. In less than a minute, she is rubbing me and trying to **increase my interest level!** We soon were at it and ended with her **having a great [vaginal]-orgasm** (which are infrequent but happening more).

Also, have you issued any new reports lately? Thank you for your time and help.....

So far your book is **enlightening**, as I, despite having success with women over many years did and still do not know, exactly how the buttons get pushed and how to **[get women horny]**.

I believe that the information will be revealing, I see almost everyday, how guys blow themselves up, trying to over analyse or compliment a female, but your descriptive prose is so far enlightening, I have almost read it in its entirety and wanted to see the extras as well.

This worked great!!!! I have been trying to hook up with my LJBF for months. When she would be over at my house and I received a phone call, I would quickly end the call by saying [something], letting her know she was special...right? Well, I got fed up with the lets just be friends routine and started [doing something effective] . Yesterday she called me and I pulled the same thing on her.... CR, you said in the report to look for a change? When I went to her house this morning to take her on a job interview.....**she was all over me! Tongue Down The Throat!** Yea, I saw the change alright. I'm back on top now. Thanks,,. it does work!

Chapter 93: “I won’t be surprised if centuries or even decades from now your information is required reading...”

From: *****@asu.edu To: crjames100@gmail.com
Date: Nov 1, 2005 8:32 PM
Subject: CR, Where is my relationship headed?
CR,

Reading over most of your reports, I am understanding better a huge problem in my marriage. You see, for some odd reason I have no problem making other women fall for me (which I have often done unintentionally) simply because when I see a woman I like, I engage with her and I absorb myself into her and into our conversation. The minute her eyes start to widen up, and her body language shifts, I know she is attracted to me. My wife has complained that I have a bunch of girl-friends (girls who are just friends but who I would be **repeatedly screwing** were I not married) and not enough guy-friends. Anyway, the problem is that my "bond" with my wife is based more on similar belief systems rather than a real attraction.

...

but we are married with two children and do not wish to go through a divorce.

Reading your material, I have been able to **increase my SV [sexual value] points** in some areas, however, there is still the huge issue of her not feeling attractive. Having just read your **LUST SIGNALS** reports, I realize [something powerful]

...

Your information is truly king. I won't be surprised if centuries or even decades from now **your information is required reading** for those in the: Marriage/Counseling/Behaviorial Psychology fields. Seriously.

Your graciously,

Trini

Well you definitely have some worthwhile information to teach. I can see parallels with some of the really good stuff in the seduction community, but your stuff if you pardon my language **cuts out all the shit and explains things just as they should be explained.** I am really enjoying reading the book. It "makes sense" with how I understand things already...but reminds you to apply it if you know what I mean, and also further ingrains it in the reader's knowledge. I came out of a relationship a few months back and as I am reading through the book my thoughts are like "oh yeah that happened...and that...and that!"

It's freaky, but I can actually identify that, in the beginning of my last relationship I was acting in many of the ways instructed by you, and **getting mind blowing sex, I even made this girl cum, in under a minute, while she was still wearing her trousers!** She had a look of disbelief on her face just before her **orgasm** as she felt herself just about to cum. As we grew closer, of course I let my guard down and fell into other behaviours (the wrong ones...as described in your book), and the same girl who couldn't keep her hands off me (even in public) would now not let me near her. Of course, I made the mistake of - "what's wrong" etc etc...you know the score.

It's a learning process though, and it's amazing how the whole thing can actually be explained in a linear fashion. **Well done you've done a sterling job.**

Here's my story for those who don't believe this works. **I never wrote a testimonial till now!** I'm single and was looking at seduction methods hoping to improve my chances of meeting more women as well as getting more sex. When you are 39 it doesn't happen often. I decided to try your methods on my next date. I only read the course once and was really HALF ASS applying your methods. **Date 1:** I laid some easy ground work. **Date 2:** She's more than interested she wants some but I decided to build more points just a little more to see what happens, well by...
Date 3: I was EMBARRASSED as we were in public. **She was all over me!**

That's how crazy she was for me. I just wanted to say thank you CR James as **it's been a long time since any woman has wanted me that bad...** and **getting her so hot that she initiated everything** was great for the both of us. thanks for the kind words john!

i have to give you a testimonial "you are the man!" and I say that seriously because not every guy takes action like you did...

i just got finished reading a email from this guy (2 seconds ago!) that wanted me to prove to him that it works... he wanted me to email him a bunch of advice (spending my valuable time) concerning getting sexual value and if it worked, he "promised" to buy...lol

i told him he doesn't have to buy. and it doesn't really matter to me whether he buys or not..lol

i guess he wanted me to "perform" - as if I'm a juggler in the subway or something.

that's the reason why i had to give you a testimonial. and i was serious about it -b/c you (and others like you) basically landed on the site -> bought the book -> read it -> tried it -> and got results...

as a matter of fact, i'm going to attach a free copy of some new stuff i'm working on.. no one has ever seen it.. not even my beta testers!!!

good luck...

keep me updated...

Hey bro thanks heaps for everything so far. My brother told me about this book and I have found it amazing! I only read it yesterday and haven't tried anything yet.

I'll give you a brief rundown on my situation.. I am engaged and have been since Nov last year. It was a bit rushed but I truly thought she was the one...

I still do but things definitely have to change..

I have never been with a girl that I truly cared about before..

I have **slept with about 100 girls before** and more often than not had a few going at the same time.. so maybe because I didn't really care about any one in

particular they all were keen? My bro told me to read this book [Super Sex Power: Magnetism] cause he thinks I am **the master of pulling girls** and wanted to know what I think. After reading this book I realise that I am a lot of the undesirable things and explains why my girl is no longer **horny** for me. I have been living in a fairytale! but I never bullshit myself and I can see that you are the light! I always want to **be honest with myself** and I have felt incredibly insecure with her. I have thought that she has been cheating on me and have been anxious when she is away from me. I used to be her MFM and with GF became her SSM and actually got together with her when she had another boyfriend..

Thank You mate!

Chapter 98: Super Lust Buttons Customer feels ripped off

Hi CR.

I really enjoyed your take on sexual value. It's simple, understandable, and **makes perfect sense**. I'm using some of your suggestions to increase my sexual value. Thanks for the help.

Hi CR, You ripped me off and I want my money back.....just kidding! Actually I find your work brilliant. In my conversation with two girls {just above average beauties} I could see them squirm with tension while fishing for answers. The way the second girl answered me I could tell she was a virgin. These girls actually liked me talking to them. Compared to "[????]", and "[?????]" which made me lose my way, **your strategy is concrete**. Those books taught me a few things **but nothing that could naturally close the deal like Super Lust Buttons**.

[Side Note: This happy customer is comparing Super Lust Buttons (a little report that I wrote in a few hours) to other people's complete courses. Also note: I used to give it away for free because I thought it would save time when 'guys in the dating field' would ask me for advice]

I don't even [do a common deadly mistake] because now I know better. I read the entire four PDFs in one sitting. I know you have some other books so Ill check out superhappysex.com soon. The confidence explanation was superb. I finally get what those other books were trying to say but couldn't

Get Your Copy of **Super Sex Power** at <http://superhappysex.com/>

(so that You can Seduce Women Using SSP Seduction Techniques)

match discourse with SLB. Super Lust Buttons is short [only 29 pages] however and I wonder what I should do to increase my sexual value after the first conversation when {not if} I get the date with **the girl of my dreams**. But like I said I'll check out your other books because you made a believer out of me. Money well spent. Peace, Earl.
Thanks I will take advantage of it. You are a genius.

Side Note #2: If a guy hasn't read Super Lust Buttons which only cost \$17 bucks (which has a mail-in-form so he doesn't have to use his credit card if he skeptical), then I don't know what to say to him. LOL.

Chapter 99: I feel I've received excellent value for the money I spent

Hi CR,

Thanks for the new reports. I feel I've received **excellent value for the money** I spent.

I've read SSP, the Levels of Communication and Super Lust Buttons. Once thru, just to familiarize myself. I'm on my way out the door to buy a couple notebooks to organize everything, so when I print it all out, I can seriously **study the material**.

All I can say is...criminy. Without going into a lot of detail now (I will later when I get the results I want to get), all I can say is I'm basically starting OVER with my wife. If it's possible, I think I worked things so that I have NEGATIVE sexual value. I got a LOT of work to do. But do it I will.

Thanks again for the support.

S***** <*****@yahoo.com> wrote:

Yea. The funny thing is that it is coming out in my favor. She dresses more like a wife than a mom now. For Mother's day she dressed relaxed and let me take the lead in the restaurant. I did ease up and I spent a few days being supportive. When the kids where out of the house this weekend, I [did something effective] and then made the move in the kitchen. **She was especially willing and giving.** After the fact, she respects me and my space more. Although at the time of the ??? technique she was furious. I believe she is **more receptive** to me because of the technique. In a flash of inspiration, I [did something powerful] to her. My wife has always prided herself on being hard to get and being above the cut. Since the kids, its been increasingly difficult for me to initiate sex. I like the idea of the ????? and the ????? of the smiley face technique. I think this is the future. She sees herself as the one with the goods and doesn't want to appear cheap. I've had some success suggesting that she has to tell me what she wants and she seems open to this. **I like the playfulness of having her beg for sex.**

The ???-based techniques have done wonders **breaking down her resistance** to sex. She is a very proud woman. I can see she is trying to do a really good job for me and is enjoying herself. I can only hope that **I can stay confident** and continue to eliminate anti-seductive behaviours so that our intimacy and connection can continue to increase.

Lol I know u must receive thousands of emails a day and 500 of them say what I just said but I had to send one in. I just purchased your books and am reading through them.

It's 2 in the morning and i got to get up at 6 lol but I want to keep reading because **your books make so much SENSE** about every thing like (i've only just started reading so leave me alone) confidence and it making u stand taller without any thought and the sexual force.

example all i could think about was shagging me misses while she was bissy talking to me about her holiday and in the end i just grabbed her and shagged her and she didn't complain a bit when normally she likes to wait, and the happy thing and just feeling positive. My relationship just had a rook and we hung in by a thread but we been getting alone like a house on fire but i wanted to know more so i got this and there so much that's true. when I feel good before people have even talked to me at a checkout (female)they are more talk-a-tiv, and well I need to stand up 4 myself a bit more by the sounds of it lol.

At the start I was having trouble working out what u were saying but u keep using examples and it just clicks and I cant wait to c the effects it will do with my relation ship and life in general. I'm starting it now lol Thank u and I mean it. my relation ship has always been a bit woobly for me but I'm confident it will work and if it doesn't then I'm not doing it right and will have to read your books harder. cause i got that special girl that i like the company of not just the hole between her legs and i don't want to almost lose her again. cheers

Sorry didn't know whether to send it to this one or ur other one so i send it to this one

My wife comes to me for sex!

Two weeks in a row **she has sucked me off and then cum with my fingers up her ass**. She likes it and expresses pride in her new found abilities. We still fight and I count it as a love/hate swing and do my best to ride it out. She is very controlling and I just do my best (somedays better than others). ...

I spent dozens of hours going through your ebook, taking notes. It is still vague in my mind, but I think I have the landscape and can fumble my way through, like walking in in the dark. It is relief to not have to worry about sex and instead build opportunity and state of mind. There is a lot of preparation and it does build the fantastic connection. I'm less likely to be antiseductive even when her behavior towards me compels me to do something stupid. It's almost like the work spent on building opportunity and state of mind has exhausted me so that I can let it go by me without comment as I don't have the energy. I feel like she is racking up solid points on me, but when she takes me to bed I'm winning the war. She seems to be totally aware of what I'm after (sex), and she never misses an opportunity to slam me. I saw a youth protection video on helping children cope with adult seduction techniques and guilty guy is freaking out and I remind myself my wife and I are adults. She shows me every Oprah show or newscast with sex offenders and I prevail with happy thoughts and good intentions and build sexual tension. Before I read your material, I let her know that she is the only one for me. And predictably, my relationship with her went down hill. It is as you said, "THERE IS A GAME AND YOU HAVE TO PLAY." Now I don't say those anti-seductive things and look for ways to be her MMF

Subject: **interesting observations**

Hello Mr. James, I purchased your "Super Sex Power: Magnetism" and bonus e-books about one month ago and have been reading and reviewing its contents regularly. You have presented **an interesting point of view**. I have been applying the various techniques as mentioned in the "Lust Signals" section and have observed various levels of **positive results from many different females**. I have observed when I enter a place where many women are present, I am "noticed" by women who will turn around immediately and look directly at me and sometimes give me a smile when I am approaching or passing by them. I do not initiate any outright verbal communication with them to attract their attention; only the **silent ????? technique**. At first I was surprised and thought it was random coincidences, but it is constantly occurring and is a **predictable reaction from women**. Specifically, last week I walked into a hardware store and overheard a young girl talking with a teenage girl in a van. I didn't pay any attention to their conversation since I was preoccupied with locating several items in the store. When I walked past the girls again; the younger girl was gazing at me intently and did not break eye contact with me. She simply appeared to have an "entranced state" expression on her face grinning from ear-to-ear and slowly waving at me. As I got into my vehicle, she continued to look at me and kept waving. I waved good-bye and drove away.

..... I am looking forward to receiving additional updates and reports from you. **This is very powerful stuff**. Sincerely,

You have to understand, we were destined for divorce within another six months until I started practicing your techniques.

What a turn around my wife has done!

She is actually starting to get aggressive with me sexually in bed at night!

She will strip down and then demand I come to bed naked too!

Then she starts to rub her naked body all over me, kissing me and telling me how much she loves me!

I know I have a lot to learn still and I have to make sure I don't fall into any pitfalls, but if this is any indication of where we are going....then I had better hang on tight!

Thank you once again CR James without your techniques I doubt I would ever have enjoyed what my wife is giving me now!

Thanx for the Hot Dog!

You are so right! At one time I was so into analyzing what turned my wife on, that I would constantly be asking her what and how she wanted it. She couldn't tell me! She didn't have the means to comunicae this to me.....no wonder I have been frustrated all these years!...in pursuit of some information she would never be able to give!

It's starting! I'm learning and my wife is starting to wake up from her "Husband induced Sexual Coma". **We are starting to have sex again!**

P.S. You have to love the look on my wife's face when she is in the middle of her orgasms!

Chapter 116: "That formula alone was the biggest piece of the puzzle to me in turning my life around"

CR,

Thanks again for sending me these books. I have read through them and once again you are absolutely right on what you have written. I noticed a few important parts in the new writings are reiterations of key points from "SSP".

Why I have not mentioned this before I don't know, but I feel it is important to mention that your "**Super Charisma**" formula is more important than maybe even you might realize. That formula alone

(so that You can Seduce Women Using SSP Seduction Techniques)

was **the biggest piece of the puzzle to me** in turning my life around. I did change internally like you said, but I now take that formula with me everywhere I go.

Even though I am happily married to my dream woman, I have now begun to put myself back into the single mode when I am around all women. This is **very good practice** to what you have written and can be applied to my own marriage.

For instance, when I [do a certain thing] I then refer back to your writings to try and test my sexual value on all of the women. Confidence, confidence, confidence! There is a reason that it's the first component of "Super Charisma".

....

What a difference! When my wife [is exposed to something], **she gets turned on** because [of something]

You discussed two important points in these latest writings (which I cannot find at the moment). One of these mentioned that if a woman [experiences something] she will make a point to restake her claim which up your sexual value in her eyes. I have noticed this with my wife. Point proven.

I am now re-reading these latest 3 books. Every time I reread something of yours, **I pick up on something different**. I will let you know what I pick up on next time.

I know the email is long, but I feel this all needed to be said. Thanks. again!

RF

you're welcome

the super charisma formula is powerful and simple. i think. in fact as you probably noticed you can use it for everything (not just for becoming desirable to your partner)

i'm really glad you appreciate it...

Chapter 117: "...she was flirting outrageously - seriously, I was getting embarrassed..."

hey cr.. cool to hear from you - actually bought your slb package a little while ago, but haven't read it yet - things have been pretty hectic and well, realise there's always

more to learn, but doing pretty damn well with the stuff i've learnt from you already.. mate, the funny thing is, it's really just the norm now - i'm getting kinda used to what to expect from a girl now, and aren't that surprised when they do ridiculous shit anymore.. one little story - i know you love em.. on sat night just gone, i had to stay at a co-worker's family house in order to be at work early next morning. She's got a **hot daughter** who i'd met once before, and had given me the ice-queen treatment at that meeting..

i was thinking "perfect", let the games begin.. anyway, by the end of dinner she was **flirting outrageously** - seriously, i was getting embarrassed....

I found out she lives with her boyfriend in sydney - dunno that helped, as I probably pushed her further away and **intensified everything**. she ended up stealing my number out of her mum's phone and sending me multiple texts after everyone had gone to bed detailing

- a) **how horny she was and**
- b) **what she was doing about it..**

this is a prim and proper miss showgirl... we did actually **develop a pretty cool connection**, which i also think she was surprised at somehow this swedish girl i'd been seeing came up (seemless dude ;)) and everyone wanted to see a photo of her - yep **she's blonde, blue eyed, 6ft tall and drop dead gorgeous**, and in the one photo in my phone she's looking longingly into the camera with her head against mine while I'm playing the fool with a dickhead look on my face..

t's like all those little signals (the arcade sounds) just get ticked off as we go, and i'm kinda a few steps ahead most of the time... although all women are different, they are, as you've said, all very predictable in their responses to certain stimuli - i guess I was surprised at first when even hot, intelligent, high-self-esteem, savvy girls went just the same way as young, impressionable ones.. they're maybe a little better at hiding things (ie more subtle), and maybe they hold out a bit longer before they throw their game away and join in with yours.. anyway, thanks again for everything so far - you definitely gave me some tools to effectively work through an incredibly difficult period of my life through separating with my wife and best friend of 13 years (which at 31 is a fucking long time ;)) and now on with **having some fun and meeting heaps of new people**.. The best thing is i'm aware of lots of the things that went wrong in our relationship and feel pretty safe in the knowledge that they'll never happen again so there'll be other challenges, but it's a good feeling. cheers take care M

Hi CR, The circle is complete. When I first bought SLB about a month ago it gave me the power to talk to women and **touch them with words**. Everything is easy now. It is fun to inspire beautiful girls in a natural way. The only thing is I am too busy to set up a date. I am always driving taxi and have no time to rest much less spend half an hour or an hour talking to girls. Yet in the five minutes or so they sit in my car I've had the opportunity several times to get numbers but what's the rush, let me enjoy watching them squirm a little bit. I now have the **SSP Gold Package** and at this point in my life I have saved enough cash to retire. I am 31.

You are the best teacher I have ever had. Peace, Earl.

Well CR I didn't expect an answer quite so quickly, thanks!

O.K. It's going to be a bit difficult recalling everything she said, but one thing I definitely remember her saying was that she felt upset by the fact that I was deceiving her with false stories. I actually used the "**Crazy Witch**" one you wrote about complete with voice and over the top acting, **Had a blast doing it too** and she was also pissed about [feeling as though she was] manipulated. I guess I understand her feelings. If I felt someone was trying to flip me I'd get kinda sore too, but I tried to show her that It was for the good of the relationship. She said, "It was for the good of that cock of yours" and things have been a bit chilly ever since. Cordial but a little too polite. If you know what I mean.

Hope this is enough info...

Dear CRJ:

I have read your book and really my objective was to relate better with the opposite sex whom I always had a phobia for, for no reason. My emotions were having the best of me whenever I was in company of females. Well your advice **works like magic**. I now have the confidence like you. I have used the seduction principles so much so that it is part of my whole approach in communication. I have **improved my relationship** with my wife too. (22 years of marriage).

Recently I joined a new company where I already have the women going crazy over me because of the **magic formula of CCCE**. Like I said I just use it all the time. The thing is, I have created such attraction in one of these women to the extent that she has responded to me in such a way that she is **virtually stalking** me now.

Subject: **RE: Matt, Customer thinks the Tree Portal is a rip off**

Dear Mr. James, I just have to write and tell you something. **You have changed my life**. Let me explain. I am a good looking, physically fit, successful, 37 year old man. I have no trouble meeting women. But after 11 years of friendship I came to realize that I could never settle down with any woman because I would always compare them to my best friend. She is a beautiful, successful woman, who I have a strong connection to. For years our friends wondered out loud how come we didn't date. Part of it was because I was too busy nailing everything that crossed my path. I love chasing pussy but have no tolerance for commitment. But over the past two years I tried to get involved with a couple of women, but my best friend kept ruining them by coming on to me. But then after I ditched the other girl she would back a way. Then a couple of months ago she started coming on to me again, this time because several of the girls in our group started really coming on to me. So we started messing around again. Then she backed off again. This I really when I realized that we would actually make a great couple. I was so mad at her for messing with me I did a google search for "turning friends into lovers". That is how I

found you. I was at the end of my rope but after some hesitation I bought your materials.

Thank you thank you thank you, Mr. James.

We are now exclusively dating each other and we both are very happy. And, I just bought **your new reports from the tree portal**, and we just had the best sex ever! **She came on to me so hard**, it was so out of her character. But I just followed your techniques and they worked like a charm. It is amazing how I do the things you suggest wondering "is this really going to work" then I get the results just as you say. I hope you have much success with your program, because I will be looking for your info for years to come. I used to wonder if I could **make her want me**, now I wonder if she is ready to do back flips in bed yet, because using your technique, she is going to do them willingly. By the way, any guy that doesn't have the balls to purchase your stuff I say to them, Good. Because now if I get bored with my new girl, I will have no trouble finding a replacement and the less guys that know **how to satisfy their women** the easier it will be for me. So glad I found you and had the balls to purchase. If all those guys looking for miss right at these on line dating services would just spend 1 month enrollment fee on your books, they would never have to waste a dime on those dating sites. Good for you Mr. James. But better for us. Thanks Again. I look forward to your new books. You better e-mail me any time you write something new. Matt

Hey Matt

That's a great way to look at it. lol.

Hi CR, Just a short note to tell you thanks for taking your time to create this great resource (**Super Sex Power**). I have had more sex in the past month than I have in the past year. I would and will recommend it to anyone. I have at least one friend who has worse sexual value problems than I ever had so as soon as it is appropriate I will recommend to him your e-book. I tried [one of the "controversial" and "gutsy" SSP techniques]

I have to tell you that I almost chickened out and bailed on the entire process. Everything within me said I was doing the wrong thing and I should have done things differently. Anyway I stuck to my guns and came home early today when I knew she would be home alone (no kids). I started talking to her [and doing something very powerful] and as soon as I put my hands on her and started kissing her she immediately began rapidly undressing me and grabbing my crotch. **She was so HOT!** We had sex right there in the kitchen and after a couple of **violent orgasms** I carried her into the bedroom for another 30 minutes of **wild sex**. I was totally in control and she was loving it. **I know she had more orgasms than she ever had in 20 years of marriage!** For 20 years we did not know what we were missing. Well I better go now because she just got home and she does not need to see this email. Thanks again,

Help man help!!! She thinks I wasted money on a book that teaches me how to fuck other women (and it does he he he) but she missed the point about **making your marriage a better one!** You must have mentioned it at least one hundred times in your reports, but she didn't seem to get it. I have thought about getting your other books, but that doesn't seem likely at this point. I really am intrigued with your stuff, but if I don't find a way to turn this situation around, it's gonna be a long cold winter in the dog house.

yikes!

actually it's not that bad - at least i don't think so. lol.. in fact i've been waiting for this to happen. and finally it did...(at least it's the first time someone has reported this to me)...

i think her reaction determines what steps you need to take... so how exactly did she respond? what did she say?

the idea that she thinks you might be saying something to turn her on isn't a bad thing... as you can imagine, my fiancé is totally suspicious of everything I say...

so use it to your advantage...

but in order to do that, it's a matter of guiding her perception --- or helping her see it as a good thing...

i tend to think it should be an "**easy sell**" - especially since many women have purchased **SSP MAGNETISM** for their husbands...

but some women don't "get it" - and to help them get it - it's best to analyze their emotional response...

so let me know some specifics about how she reacted...

so how exactly did she respond? what did she say?
